Algo

Effective Algae, Black Spot and Lichens Remover

Professional outdoor cleaner for use on natural stone and masonry

Easy to use and fast acting.

What Will it Remove

Tile Master Algo is a professional grade outdoor product which is ideal to clean and remove the unsightly look of algae, grey lichens and black spots from all masonry and natural stone.

In severe cases of black and white lichen contamination, leave the product to dwell overnight and power wash off the following day. TileMaster Algo contains chlorine as an active ingredient and will stain fabrics and sensitive materials. *The fluid might cause slight lightening of some surfaces - always try product in an inconspicuous area prior to use.*

Warning : Not intended for wood, vinyl or plastic surfaces.

Where to use

Perfect for use on your Natural Stone.

Benefits

- Removes unsightly look of algae, grey lichens and black spots from all masonry and natural stone
- Easy to use
- Restores the stone
- Perfect for professional and DIY use
- Ready to use & Very Fast Acting

1 Kg

How to Use & Apply

1. Before use of TileMaster Algo remove any loose debris from the patio area, always pre-wet the surface area with clean water prior to applying product
2. Apply Tilemaster Algo generously and neat to surface. Take care not to spill the cleaner on sensitive surfaces, ie fabrics, carefully transfer the Algo from the bottle to a pump sprayer or watering can. If these containers are not available, then cleaning fluid can be used directly from the bottle.
3. TileMaster Algo will start to work instantly, however, agitation via the Tilemaster 40 or deck brush will speed up the process. Rinse away with clean fresh water and check for desired results. Please note the Algo can harm or possibly kill vegetation so try to avoid washing off onto garden or lawned areas. If this unavoidable them rinse with plenty of clean water to dilute Algo.
4. If necessary apply a 2nd application with additional TileMaster Algo.
5. The treated area should be washed down with clean fresh water to neutralise.

Dilution Rates Per Litre

Product is ready to use NEAT.

Do not apply Algo when the threat of rain is imminent. Always try product in an inconspicuous area prior to use. Extra caution is required when applying near or around fish ponds or similar. If you accidentally over-spray onto delicate plant life, rinse off with clean water.
