

Satin Wax Dressing

5 Litre

Active H2O Wax

***Satin Wax Dressing For Tiles
& Natural Stone***

*Marble, Limestone, Travertine, Granite
& Highly Absorbent Stone*

TM&C

What Will it Dress

Satin Wax Dressing is an ideal surface sealer to protect natural stone and give a wonderful satin finish. The Wax Dressing is perfect for use on Stone, unpolished Marble & Limestone, Quarry tiles, Granite Tiles and any absorbent stones. Using The Tile Master Protection System, your tiles will have an excellent and strong surface barrier which helps makes maintenance easier. **Warning: does not protect stone from acid or chemical damage, surface wear or scratching. Does not protect against oil.**

Where to use

Perfect for use on your floors, walls, splittface tiles, or anywhere around your home to protect natural stone. (not suitable for wet areas or outdoors)

Benefits

Enhances the natural appearance of surface and gives satin shine

Low odour and does not give off unpleasant smells.

Protects, Enhances and Maintains tiles in one solution.

Easy to apply and Ready to USE

Aids maintenance and makes it easy to clean your floor

Coverage Rates Per 1litre per coat

Stone & Quarry Tiles - 15 - 25 sqm

High Absorbent Stone - 8-12sqm

How to Use & Apply

- 1) Always **TEST PRODUCT ON SMALL AREA FIRST.** Allow to cure for 24 hrs and check for desired results, colour change and protection level.
- 2) Check that area is dry, clean and free of all residue and previous treatments (for excellent stain protection apply an undercoat of ALL in One Water based first).
- 3) Evenly apply 1 coat of Satin Wax Dressing to create an even finish on surface. The product should not pool and not be over applied.
- 4) After 1 hour or when surface is touch dry, check surface to see if desired results have been achieved.
- 5) For highly absorbent stone apply a second coat after 1 hours, using steps 3 and 4 as above.
- 6) The floor is fine for light foot traffic in socks and slippers after 2 hour from final coat or when surface is dry. Allow 48 hours before wetting the floor or ontact with water or stains

Floor preservation and ongoing Maintenance

Surfaces treated with Wax Dressing Satin, should be maintained with Tile Master Cleaner No2, diluted at 1-50. (1 cap in 5 litres of Water) For upkeep, the wax can be diluted with 200ml of wax in 1litre of water and applied to the floor using a mop. This will revitalise the floor.

WARNING: Ensure Satin Dressing is stored well sealed, in a cool dry place and kept away from heat at all times. Ensure area is well ventilated and wear suitable clothing. Replace lid after each use. Keep out of reach from children and pets. Use Suitable gloves as product may cause skin irritation. In case of contact wash under running water. If swallowed, call a doctor.
