

Grout, Plaster & Builder Dirt Remover

Technical Data Sheet

 PORCELAIN

 CERAMIC

What will it clean

Cleaner No4 is great for cleaning your ceramic & porcelain tiles after they have been laid. Great acid wash product to remove, grout, plaster, and builder dirt and residues.

Where to use

Cleaner No4 is perfect for use in kitchens, hallways, bathrooms and where a deep acid wash is required.

How to Use

Dilute the cleaner with water to dilution rate above and apply cleaner to the surface. Leave product for 5 minutes - NB do not allow to dry on surface. Scrub the area with The Tile Master or stiff brush. Clean away dirty water using a clean mop. Repeat if required of very dirty surfaces. Rinse floor well after use to remove residue.

Benefits

- ✓ Deep clean both your tiles and grout
- ✓ Removes grout haze left from installation
- ✓ Extremely powerful acid wash
- ✓ Removes stubborn marks, plaster & builder dirt
- ✓ High concentrated

Coverage

Dilution rates per 1 litre

Deep cleaning and degreasing - 1:4 - 15m²

Tile and grout refresh - 1:10 - 30m²

Notes

Important

Only use No4 on ceramic & porcelain. Unless you fully understand application, DO NOT use Cleaner No4 on any surface that is calcareous, sensitive to acids (e.g. stainless steel, chrome.), or that contain lime (i.e. marble or limestone).

Never Use NEAT on any surface

Precautions

Mask and protect painted surfaces, untreated wood and other sensitive areas. Rinse off overspray. Any solution remaining on surfaces treated with this product should be completely neutralised.
