

### What will it clean

Cleaner No.1 is a high-quality pH neutral cleaner, it is ideal to clean and remove built-up dirt and grease on all your ceramic, porcelain, luxury vinyl tiles, safety floors, sealed wood and concrete.

Warning: Always pre-test a small area.

### Where to use

Perfect for use in kitchens, bathrooms, shower areas, entrances or anywhere with dirty tiles or grout.

### Benefits

- ✓ Deep clean both your tiles and grout
- ✓ Clean without damaging any surface
- ✓ Extremely easy to use
- ✓ Removes stubborn marks
- ✓ Highly concentrated

### How to use

- 1 Depending on the level of soiling dilute cleaner No.1 to the correct dilution rates with either hot or cold clean water.
- 2 Sweep or vacuum the area of any loose soils.
- 3 Apply cleaner to surface and leave to act for 3 minutes, do not allow the product to dry into the surface.
- 4 Agitate the product into the surface using the TileMaster 40, rotary, deck brush or mop and bucket.
- 5 Once the desired result is achieved, extract all soils with clean water mop, wet vac or cloth.
- 6 Repeat the process on extremely dirty surfaces.
- 7 Rinse well with fresh clean water to ensure all residue is removed or mop once with 1 cap of No.1 to 5ltr of fresh clean water – this will dry streak free, no need to rinse.
- 8 Failure to follow guide may result in damage to the surface.

### Coverage

Dilution rates per 1 litre

Deep cleaning and degreasing - 1:4 - 15m<sup>2</sup>

Tile and grout refresh - 1:12 - 45m<sup>2</sup>

Maintenance clean - 1:200 (1 cap to 5ltr of water, polished surfaces may require a dry buff)
