

### What will it clean

Cleaner No.4 is a high-quality acidic cleaner, it is ideal to clean ceramic and porcelain tiles after installation. Great for removing grout haze, plaster, cement and general builders dirt that has built up on the tiles.

Warning: Always pre-test a small area.

### Where to use

Perfect for use in kitchens, bathrooms, shower areas, entrances or anywhere with dirty tiles or grout around your home requiring a deep acid wash.

### Benefits

- ✓ Deep cleans both your tiles and grout
- ✓ Removes grout haze left from installation
- ✓ Extremely easy to use
- ✓ Removes stubborn marks or plaster, cement and builders dirt
- ✓ Highly concentrated

### How to use

- 1 Depending on the level of soiling dilute cleaner No.4 to the correct dilution rates with either hot or cold clean water.
- 2 Sweep or vacuum the area of any loose soils.
- 3 Apply cleaner to surface and leave to act for 3 minutes, do not allow the product to dry into the surface.
- 4 Agitate the product into the surface using the TileMaster 40, rotary, deck brush or mop.
- 5 Once the desired result is achieved, extract all soils with clean water mop and bucket, wet vac or cloth.
- 6 Repeat the process on extremely dirty surfaces.
- 7 Rinse well with fresh clean water to ensure all residue is removed or mop once with 1 cap of No.1 to 5ltr of fresh clean water - this will dry streak free, no need to rinse.
- 8 Failure to follow guide may result in damage to the surface.

### Coverage

Initial wash / grout haze removal - 1:5 - 15m<sup>2</sup>

Builders clean refresh - 1:10 - 30m<sup>2</sup>
