

### What will is Clean?

TileMaster Dia-mond Dust is a safe, non acidic, easy to use cleaning powder designed to be used on tile and stone to aid the cleaning process. It will help remove built up dirt and traffic wear, and stubborn marks and build ups to produce an even clean matt finish.

**TEST FIRST** Due to the nature of different surfaces, you should do several test areas in inconspicuous areas according to the label instructions to determine surface colour stability and desired results. The end user must determine the suitability of the product for their intended use. This will take the shine off marble, limestone and polished surfaces.

### Where do you use it?

Perfect for use on tiles and stone, around your kitchen, hallway and bathroom.

**SAFETY MEASURES:** **1.** Always Test first; **2.** Read entire label and product technical bulletin before using; **3.** Wear appropriate skin and eye protection; **4.** Use when surface temperature is between 4°C and 32°C.

**EQUIPMENT** **1.** Tile Master Pad B; **2.** Tile Master Machine; **3.** Clean water, wet vac, squeegee and broom; **4.** Diamond Dust 200 grit.

**DIRECTIONS** **1.** Surface must be free of all surface sealers and coatings; **2.** Sweep, vacuum, or wipe surface; **3.** Sprinkle Diamond Dust 200 grit to the surface in a manageable area; **4.** Add clean water to create a firm slurry; **5.** Use a tile master machine and pad B (green pad) and then start the cleaning process; **6.** Do not allow product to dry - add water to the slurry as required; **7.** Continue until the desired effect has been achieved; Note: Use a squeegee to check your progress; **8.** Remove the slurry with a wet vac and rinse thoroughly with clean water and a mop or scrubber drier; **9.** Repeat process as necessary;

# Dia-Mond Dust

750 Grams

**LIMITATIONS** • Do not mix with other chemicals other than Tile Master products or allow product to come in contact with any non-recommended surfaces;

**COVERAGE** Approximately 25-40 square meters per 1kg. The coverage will vary depending on the surface density, hardness, porosity, texture, absorption, weather, the application method, severity of the problem and dilution used.

**STORAGE Advice** • Close container tightly after each use. • Store in original container only. • Store in temperatures between 4°C and 32°C. **FIRST AID** For advice, contact a doctor. If swallowed, do NOT induce vomiting. Immediately give at least 3-4 glasses of water. If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information centre or a Doctor, or for at least 15 minutes. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If irritation persists, seek medical attention. In case of accident or if you feel unwell, seek medical advice immediately.

**SAFETY DIRECTIONS** Avoid contact with skin and eyes.

### Tech Help & Support;

Must Read entire label and tech/MSDS sheet before using.

These can be found at [www.thetilemaster.co.uk](http://www.thetilemaster.co.uk).

The user must determine the suitability of the product for its intended use.

**ALWAYS DO A TEST FIRST**
