

Natural Stone Tile Cleaner

Technical Data Sheet

Ingredients: <http://www.thetilemaster.co.uk/msds-h-s-data-sheets>

- ✓ TRAVERTINE
- ✓ LIMESTONE
- ✓ MARBLE
- ✓ GRANITE
- ✓ QUARRY TILES
- ✓ SLATE
- ✓ SAND STONE
- ✓ YORK STONE

What will it clean

Cleaner No2 is a gentle but effective cleaner containing a degreaser to deep clean your tiles. This is ideal to clean and remove built up dirt and grease on all types of natural stone tiles. Cleaner No2 also effectively cleans polished, unpolished, honed and all acid sensitive surfaces.

Where to use

Cleaner No2 is perfect for use in kitchens, hallways or bathrooms where you have dirty tiles and grout.

How to Use

Dilute the cleaner with water to dilution rate above and apply cleaner to the surface. Leave product for 5 minutes - NB do not allow to dry on surface. Scrub the area with The Tile Master or stiff brush. Clean away dirty water using a clean mop. Repeat if required of very dirty surfaces. For daily maintenance, dilute 2 capfuls of cleaner no 1 into a bucket of warm water. Wash the floor and allow to dry. Does not require rinsing.

Benefits

- ✓ Deep clean both your tiles and grout
- ✓ Cleans without damaging any surface
- ✓ Extremely easy to use
- ✓ Removes stubborn marks
- ✓ Highly concentrated

Coverage

Dilution rates per 1 litre

Deep cleaning and degreasing - 1:4 - 15m²

Tile and grout refresh - 1:12 - 45m²

Maintenance clean - 1:200 (1 cap to 5ltr of water, polished surfaces may require a dry buff)

Notes

Important

On waxed or polished surfaces i.e polished porcelain, a dry buff may be required with a soft cloth or towel.

Never Use NEAT on Polished Marble & Stone

Precautions

Do Not use Cleaner No2 on any surface not recommend above.
