

# WoodMaster Easy Coat

## Section 1 - Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Product name: WoodMaster Easy Coat  
 Product description: Waterborne coating for wooden floors.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of substance / mixture: Not applicable

### 1.3 Details of the supplier of the safety data sheet

Company name: TileMaster, Unit 11/12 Shepley Lane Ind Est, Marple, Hawk Green, Stockport, Cheshire SK6 7JW  
 Tel: 0161 444 0377  
 Fax: 0161 444 0377  
 Email: info@tilemaster.co.uk

### 1.4 Emergency telephone number

Telephone number: +44 (0) 161 444 0377  
 Hours of operation: 9:00 - 17:00  
 Information limitations: Information in English only!

## Section 2 - Hazards Identification

### 2.1 Classification of the substance or mixture

Product definition: Mixture  
 Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]: Not classified - The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended. See Section 11 for more detailed information on health effects and symptoms.

### 2.2 Label elements

Signal word: Not Applicable  
 Hazard statements: Not Applicable

### Precautionary statements

Prevention: Not applicable  
 Response: Not applicable  
 Storage: Not applicable  
 Disposal: Not applicable  
 Supplemental label elements: Not applicable  
 Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles: Not applicable

### Special packaging requirements

Containers to be fitted with child-resistant fastenings: Not applicable  
 Tactile warning of danger: Not applicable

### 2.3 Other hazards

Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII: This mixture does not contain any substances that are assessed to be a PBT or a vPvB.  
 Other hazards which do not result in classification: None known

**Section 3 - Composition/information on ingredients**

**3.2 Mixtures**

Mixture - There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

**Section 4 - First aid measures**

**4.1 Description of first aid measures**

- General:** In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and seek medical advice.
- Eye contact:** Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.
- Inhalation:** Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.
- Skin contact:** Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Do NOT use solvents or thinners.
- Ingestion:** If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.
- Protection for First Aiders** No action shall be taken involving any personal risk or without suitable training.

**4.2 Most important symptoms & effects, both acute & delayed, caused by exposure:**

There are no data available on the mixture itself. The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin. If splashed in the eyes, the liquid may cause irritation and reversible damage.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

**4.3 Indication of any immediate medical attention and special treatment necessary:**

- Notes to physician:** Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments:** No specific treatment.

**Section 5 - Fire-fighting measures**

**5.1 Extinguishing media**

- Suitable media:** Recommended: alcohol-resistant foam, CO<sub>2</sub>, powders, water spray.
- Unsuitable media:** Do not use water jet.

**5.2 Special hazards arising from the substance or mixture**

- Hazards from the substance or mixture:** Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard.
- Hazardous thermal decomposition products:** Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.

**5.3 Advice for Fire Fighters**

- Special protective actions for fire-fighters:** Cool closed containers exposed to fire with water. Do not release runoff from fire to drains or watercourses.
- Special protective equipment for fire-fighters:** Appropriate breathing apparatus may be required.

**Section 6 - Accidental release measures**

**6.1 Personal precautions, protective equipment and emergency procedures**

**For non-emergency personnel:** Avoid breathing vapour or mist. Refer to protective measures listed in sections 7 and 8.

**Emergency procedures:** If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**6.2 Environmental precautions**

Do not allow to enter drains or watercourses. If the product contaminates lakes, rivers, or sewers, inform the appropriate authorities in accordance with local regulations.

**6.3 Methods and material for containment and cleaning up**

Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Preferably clean with a detergent. Avoid using solvents.

**6.4 Reference to other sections**

See Section 1 for emergency contact information.  
See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

**Section 7 - Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

**7.1 Precautions for safe handling**

Avoid contact with skin and eyes. Avoid inhalation of vapour, spray or mist.  
Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed.  
Put on appropriate personal protective equipment (see Section 8). Never use pressure to empty. Container is not a pressure vessel.  
Always keep in containers made from the same material as the original one. Comply with the health and safety at work laws.  
Do not allow to enter drains or watercourses.

**7.2 Conditions for safe storage, including any incompatibilities:**

Store in accordance with local regulations.  
**Notes on joint storage**  
Keep away from: oxidising agents, strong alkalis, strong acids.  
**Additional information on storage conditions**  
Observe label precautions. Store in a dry, cool and well-ventilated area. Keep away from heat and direct sunlight. Keep container tightly closed.  
No smoking. Prevent unauthorised access. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

**7.3 Specific end use(s)**

**Recommendations:** Not available

**Industrial sector specific solutions:** Not available

**Section 8 – Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

**8.1 Control parameters**

**Occupational exposure limits:** No exposure limit value known.

**Recommended monitoring procedures:** If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

**DNELs/DMELs:** No DNELs/DMELs available.

**PNECs:** No PNECs available.

**8.2 Exposure controls**

**Appropriate engineering controls:** No exposure limit value known.

**Individual protection measures**

**Hygiene measures** Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.  
Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Skin protection**

**Hand protection:** There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals. The breakthrough time must be greater than the end use time of the product.  
The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed. Gloves should be replaced regularly and if there is any sign of damage to the glove material. Always ensure that gloves are free from defects and that they are stored and used correctly.  
The performance or effectiveness of the glove may be reduced by physical/chemical damage and poor maintenance.  
Barrier creams may help to protect the exposed areas of the skin but should not be applied once exposure has occurred.

**Gloves:** For prolonged or repeated handling, use the following type of gloves:  
Recommended: nitrile rubber  
The recommendation for the type or types of glove to use when handling this product is based on information from the following source:  
The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment.

**Body protection:** Personnel should wear antistatic clothing made of natural fibres or of high- temperature-resistant synthetic fibres.

**Respiratory protection:** If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators.  
Dry sanding, flame cutting and/or welding of the dry paint film will give rise to dust and/or hazardous fumes. Wet sanding/flattening should be used wherever possible. If exposure cannot be avoided by the provision of local exhaust ventilation, suitable respiratory protective equipment should be used.

**Environmental exposure controls:** Do not allow to enter drains or watercourses.

**Section 9 - Physical and chemical properties**

**9.1 Information on basic physical and chemical properties**

|  |   |
|--|---|
| Physical state                               | Liquid  |
| Colour                                       | White   |
| Odour  | Not available   |
| Odour threshold                              | Not applicable  |
| pH   | 8   |
| Melting point/freezing point                 | Not available   |
| Initial boiling point and boiling range      | Not available   |
| Flash point Evaporation rate                 | Not available   |
| Flammability (solid, gas)                    | Not applicable  |
| Upper/lower flammability or explosive limits | Not applicable  |
| Vapour pressure                              | Not available   |
| Vapour density                               | Not available   |
| Relative density                             | 1,04  |
| Solubility(ies)                              | Soluble in the following materials: cold water and hot water. |
| Partition coefficient                        | Not applicable  |
| Auto-ignition temperature                    | Not available   |
| Decomposition temperature                    | Not applicable  |
| Viscosity                                    | Not available   |
| Explosive properties                         | Not available   |
| Oxidising properties                         | Not available   |

**Section 10 - Stability and reactivity**

**10.1 Reactivity**

No specific test data related to reactivity available for this product or its ingredients.

**10.2 Chemical stability**

Stable under recommended storage and handling conditions (see Section 7).

**10.3 Possibility of hazardous reactions**

Under normal conditions of storage and use, hazardous reactions will not occur.

**10.4 Conditions to avoid**

When exposed to high temperatures may produce hazardous decomposition products.

**10.5 Incompatible materials**

Keep away from the following materials to prevent strong exothermic reactions: oxidising agents, strong alkalis, strong acids.

**10.6 Hazardous decomposition products**

Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.

**Section 11 - Toxicological information**

**11.1 Information on toxicological effects:**

There are no data available on the mixture itself. The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non- allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

Acute toxicity: Not available

Acute toxicity estimates: Not available

Irritation/Corrosion: Not available

Sensitisation: Not available

Mutagenicity: Not available

Carcinogenicity: Not available

Reproductive toxicity: Not available

Teratogenicity: Not available

Specific target organ toxicity (single exposure): Not available

Specific target organ toxicity (repeated exposure): Not available

Aspiration hazard: Not available

Other information: Not available

**Section 12 - Ecological information**

**12.1 Toxicity**

There are no data available on the mixture itself. Do not allow to enter drains or watercourses.

The mixture has been assessed following the summation method of the CLP Regulation (EC) No 1272/2008 and is not classified as hazardous to the environment.

**12.2 Persistence and degradability**

Not available.

**12.3 Bioaccumulative potential**

Not available.

**12.4 Mobility in soil**

Soil/water partition coefficient (KOC) / Mobility - Not available.

**12.5 Results of PBT and vPvB assessment**

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

**12.6 Other adverse effects**

No known significant effects or critical hazards.

**Section 13 - Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

**13.1 Waste treatment methods - Product**

**Methods of disposal:** The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non- recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

**Hazardous waste:** Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC.

**Disposal considerations:** Do not allow to enter drains or watercourses. Dispose of according to all federal, state and local applicable regulations. If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned. For further information, contact your local waste authority.

**European waste catalogue (EWC):** The European Waste Catalogue classification of this product, when disposed of as waste, is:  
**Waste code** - 08 01 12  
**Waste designation** - waste paint and varnish other than those mentioned in 08 01 11

**13.1 Waste treatment methods - Packaging**

**Methods of disposal:** The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

**Disposal considerations:** Using information provided in this safety data sheet, advice should be obtained from the relevant waste authority on the classification of empty containers. Empty containers must be scrapped or reconditioned. Dispose of containers contaminated by the product in accordance with local or national legal provisions.

**Special precautions:** This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. None known.

**Section 14 - Transport information**

|                                       | ADR/RID       | ADN           | IMDG          | IATA          |

**14.6 Special precautions for user**

Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**14.7 Transport in bulk according to Annex II of Marpol and the IBC Code**

Not applicable

**Section 15 - Regulatory information**

**15.1. Safety, health and environmental regulations**

**EU Regulation (EC) No. 1907/2006 (REACH)**

|  |  |

**Notice to Reader:**

The information in this Safety Data Sheet is based on the present state of knowledge and current legislation. It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications. The product should not be used for purposes other than those shown in Section 1 without first referring to the supplier and obtaining written handling instructions. As the specific conditions of use of the product are outside the supplier's control, the user is responsible for ensuring that the requirements of relevant legislation are complied with. The information contained in this safety data sheet does not constitute the user's own assessment of workplace risks, as required by other health and safety legislation.
